Whiskey Cabinet

Projects · https://thejoinery.club/docs/project-whiskey-cabinet/

Casework — a carcass, a drawer, a door. Everything at once.

Why this one

Casework. A carcass, a drawer, and a door — three different construction problems in one piece, plus a door panel you choose yourself, from plywood up to marquetry. Everything earlier on the ladder shows up here at once.

Skills you will use

- Carcass joinery with loose tenons
- Shelf dados
- Designing around wood movement
- Mitered drawer joints
- Frame-and-panel door construction
- Panel options: plywood, burl veneer, or marquetry
- French cleat hanging
- Hardware installation

Tools

Mitre Saw · Jointer · SawStop Table Saw · Domino · Router Table · Band Saw · Drum Sander

Time

Five phases. The class runs six weeks.

A note

This is also a paid class. The companion covers the build; the class gets you instruction, shop time, and someone watching your setups.

Stuck?

Open office hours run Wednesdays and Saturdays. Bring the project, bring the board, bring the question. Bring the carcass in before you glue it up.
